

## Chapter 3

### Question 1:

Why do people who grow crops have to stay in the same place for a long time?

**Answer:**

People who grow crops have to stay in the same place for a long time because they have to look after the plants, water them, weed the fields, drive away animals and birds and use and store the grains carefully.

### Question 2:

Look at the table on page 25. If Neinuo wanted to eat rice, which are the places she the places she should have visited?

**Answer:**

If Neinuo wanted to eat rice she should have visited Koldihwa and Mahagara.

### Question 3:

Why do archaeologists think that many people who lived in Mehrgarh were hunters to start with and that herding became more important later?

**Answer:**

Archaeologists think that many people who lived in Mehrgarh were hunters to start with and that herding became important later because at the earlier levels of the excavation sites, bones of wild animals such as deer and pig were found while at the later levels more bones of sheep, goats and cattle were found.

### Question 4:

State whether true or false:
